YOUTUBE VIDEO CLIPS FROM PUREBRED STUDIOS

Since YouTube Videos can be seen by anyone in the World, Purebred Studios thinks that many of your National Specialty participants might like to publish videos of their show wins or their performance event title runs on Youtube. The following is from Purebred on how they will do the YouTube video clips.

We'll upload selected footage of any entry from your National to the YouTube website on our own YouTube channel, "purebredstudios". There are already many videos to see on our YouTube channel which can be viewed at: http://www.youtube.com/profile_videos?user=purebredstudios

Here's the type of video clip content we'll upload for each entry:

1. For Conformation...We'll include the judge's examination during conformation, the movement pattern, and the winning selection if they win their class. If the entry is selected as winners dog, winners bitch or sweepstakes "best", we'll include this video scene as well, and the awarding of the ribbons. If the entry does not win, we will include only the judge's examination and the down and back or triangle. For Performance events (Obedience, Agility, Field, etc)....We'll include all the action... up to 10 minutes, as permitted by YouTube.
2. All orders for YouTube clips must be made with Susan Chow within 1 week after the show. After this 1 week period, the video files from your show could be erased from our editing computers. Some uses of our YouTube clip. (a) You can email the YouTube link to friends and family. Show them your entry at the National! (b) If the entry wins an award, the YouTube clip could be emailed to the Judge with a thank you note! (c) For Breeders who have their own website (and many do), they can embed their YouTube video clip on their website. JPEG photos are great to show on a breeder's website.... But aren't video clips of a significant win a whole lot better?!
3. All the content we'll upload to YouTube is from the footage that we "shoot" at your Show for one (1) entry. There is no provision for combined video shots of more than one entry...or combinations or groups of entries. This would entail lots of extra work. If desired, this could be arranged separately with our company, and would be quoted directly to the breeder or owners while at the show.
