Unofficial CCRCA 2014 Advertising Catalog

Welcome to the 2014 CCRCA National Specialty!

On behalf of the CCRCA and the 2014 National Specialty Committee, I hope you enjoy your time in Missouri. This is a beautiful time of year to hold a specialty and the St. Louis area has many things to see and do. We encourage will get a chance to explore the area around our show and hotel locations.

We are excited to have such great venues for our specialty this year. The August A. Busch Memorial Conservation Area is a lovely area to hold our working tests or just observe wildlife. Purina Farms, where we will hold our obedience, agility, and conformation events is a state of the art facility. Don't forget to stop by their Visitor Center to visit with their guest animals and exhibits.

Our host hotel, the Holiday Inn St. Louis West at Six Flags in Eureka, MO. is built around a renovated, 19th century stone barn that offers great amenities and is very dog

friendly. We will have our hospitality room in the main building of the hotel. You will find nearby attractions of two theme parks, an endangered wolf center, as well as areas to shop and eat. In addition, stop by the hotel's Haymarket Restaurant or Terrace Lounge for drinks and dining.

We trust that the 2014 specialty will be a positive experience. Please remember to clean up after your dogs at all times so we will be assured of being invited back in the future, and most importantly, **HAVE FUN!!**

Meet our Field Judges

**Working Certificate
Working Certificate Excellent
Working Certificate Qualified
Upland Working Certificate**

Dan Feisthammel -Hartland, WI

What breed did you start with and what breeds have you owned?

Mixed breeds and beagles are what I grew up with, primarily beagles though. I can recall at quite an early age having my Grandfather pick up my brother and I to run Duke"one of Grandpas beagles. It was great fun watching how the dog would track and figure things out, then when he became hot, Duke would begin to sing and the chase was on. Thus started my love for dogs and training.

The first dog my wife and I had was a sweet mixed breed named 'Amar;" followed by a lab mix named 'Chester;"another lab mix named Kanga"and finally our first Golden, 'Roly."We've been with Golden's ever since. Roly was quite a character and spoiled us terribly by staying with for a couple months shy of his 17th birthday. Currently we continue to breed, raise, train and compete with our wonderful Golden's.

How did you get started in dogs?

As I had grown up with dogs, I couldn't wait to leave my parents home so I could have my own dog. (Funny, now I continually tease my Dad that I'm going to move back in one of these days) The joy of always having dogs around as a child made me want my children to have the same opportunity as well as responsibility. Deep down though, I had always wanted to have one of those well trained dogs that were exhibited at the Milwaukee Sport Show each winter. I would dream of watching my dog perform perfectly executed marked retrieves and directed retrieves (blinds).

What do you most enjoy about judging?

I enjoy the opportunity to be a positive influence on every handler I am privileged to meet, and to do my best to make them feel at ease while they are

running their dog. I am particularly interested in encouraging youth and women handlers to enjoy this great sport of retriever training and competition, and continually remind them their dogs were bred for that purpose. I like to also be a role model for the organizations I judge for and act as a good will ambassador.

What advice do you have for people running their dogs under you?

Breath in, breath out . . . continue to repeat this pattern at least 12 time per minute while running your dog. Have Fun! Everything else is just details. :)

Name the three most important things you look for when judging?

1. A dog/handler team! Without team work, I've seen things fall apart quite quickly. There are times when the handler (usually novice) let's the dog drive the bus. Handlers must remember, God gave them thumbs to grip the steering wheel, handlers must drive the bus! Yet, the wise handler will also realize that at times the dog actually does know better than the handler were marks fell, or what direction the bird ran in.

2. Friendly, enthusiastic handlers, that even though they may feel terrified, nauseous, overwhelmed and on the verge of collapse (been there) can still smile and laugh when crazy judges try to lighten the mood at the line.

3. As much as we are required as judges to demand a high level of control from the dogs, I enjoy watching the dog with a higher level of enthusiasm. The position we put our dogs in regarding hunt testing is quite artificial, and I believe the dogs are acutely aware of this. Like people, some dogs respond better than others to this stress, and for those that are more challenged . . . I'm sure you'll be happy to see me in the judges chair.

Mary Feisthammel -Hartland, WI

What breed did you start with and what breeds have you owned?

My love for dogs started when my oldest sister at 16 years old received a Collie mix puppy named Shatzie. We had a great time growing up with him. I have owned a mixed lab/collie, lab mix and mostly Golden Retrievers since marrying Dan.

How did you get started in dogs?

I got started in dogs thru my husband, Dan. When my youngest son was 3 years old, Dan drove several miles to surprise me with a Golden Retriever pup. We did not know much about hunt test but, Dan learned to handle Murray to the National Master Hunter qualifier level. I would go to the hunt tests to watch and learn. Finally I decided to run a dog at a hunt test and passed. Every hunt test I learned so much. I wanted to teach other handlers, so I decided to become a judge.

What do you most enjoy about judging?

I enjoy meeting different people and seeing the vast talent of many hunting retriever dogs. It brings joy watching a handler and their dog having fun together.

What advice do you have for people running their dogs under you?

Some advice I would have for people running their dogs under me Relax, take your time, and just enjoy your dogs. Don't be afraid to ask questions, that's how you learn. I have been there and know how it feels when the judge says, "Dog to the line"

Name the three most important things you look for when judging?

When judging I look for:

Is the test legal and safe for handlers, dogs, wingers, gunner and all those involved in the test? Did the dog and the handler meet the objective of the test-marking, go to area of fall, retrieving the bird and return the bird back to handler? Does the dog look like they enjoy retrieving and the handler responses positively to the dog?

***Wishing all of the Curlies success
in the 2014 Specialty Events***

www.glccrc.org

Celebrating the versatile Curly-Coated Retriever

Meet our All-Breed Agility Judge

Lisa Patterson –Madison, AL

What breed did you start with and what breeds have you owned?

Airedale Terrier was my first agility dog.

I have owned multiple breeds many from a Saint Bernard to a Cairn Terrier. I currently compete with a Jack Russell and a Border Collie

How did you get started in dogs?

I have had dogs my whole life but started formally training with my Airedale Terrier after my Cairn Terrier of 12 years was not very happy about a baby joining our family.

What do you most enjoy about judging?

Difficult - I enjoy so much about it! Getting to see and learn the different ways people work and train with their dogs all over the country, getting to meet new people, watching a novice handler and dog FINALLY get that title! I could go on and on!

What advice do you have for people showing their dogs to you?

Treat your teammate the way you want to be treated!

Name the three most important things you look for when judging?

Patience and kindness and fun.

Name the three most important things you look for when judging?

Patience and kindness and fun.

Meet our Obedience & Rally Judge

Margery West –Springfield, MO

What breed did you start with and what breeds have you owned?

I started with an American Eskimo, then Shelties, then a series of Retrievers: Labs, Golden Retrievers, and a Curly. I've also had a Border Collie, a Greyhound, and presently have a Cavalier King Charles Spaniel and a Papillon.

How did you get started in dogs?

Wanting – Needing! – To teach my Eskimo to come when called. One obedience class in 1974 got me hooked!

What do you most enjoy about judging?

The interaction with people, seeing people I consider friends that I never see otherwise, and of course the dogs. I love watching the dogs!

What advice do you have for people showing their dogs to you?

Just relax and trust your training. If things “go south” don't be embarrassed (I've sure I've seen worse!), mad, or frustrated. Take your dog home and train some more and love your dog a lot.

Name the three most important things you look for when judging?

That the handler pays attention to me and their dog.

That each handler is well-versed in the exercises and has taught the dog to do them.

That the handler and the dog are polite to everyone and always a good sport.

Meet our Conformation Judge

Regular and Non-Regular Classes Junior Showmanship Competition Mrs Betsy Horn Humer - Pungoteague, VA

What breed did you start with and what breeds have you owned?
Chesapeake Bay Retrievers always!

How did you get started in dogs?
My parents raised and showed Chesapeakes and I grew up going to dog shows and obedience and show handling classes.

What do you most enjoy about judging?
I enjoy looking for the “best” dog that I feel fits the breed standard.

What advice do you have for people showing their dogs to you?
Try and relax and smile!

Name the three most important things you look for when judging?
*That form follows function
A sound mover
If a breed has one particular “hallmark” or more, I want to see an excellent example of them*

Meet our Conformation Judge

Puppy, Veteran & Gun Dog Sweepstakes Ms Kathi Leonhardt - Indiatlantic, FL

What breed did you start with and what breeds have you owned?

I started with a mini silver poodle, then went to chocolate labs and fell in love with flat-coated retrievers.

How did you get started in dogs?

An employee of my husband was a professional handler and I spent time with her and her husband at the shows.

What do you most enjoy about judging?

I enjoy judging dogs and handlers working together to show their best attributes. I especially enjoy judging puppies and vets.

What advice do you have for people showing their dogs to you?

Try to enjoy your dog while showing. If you're having a great time, he will too and will perform at his best.

Name the three most important things you look for when judging?

Type, structure, and movement.

Saturday, September 13, 2014 Working Certificate Tests

Sunday, September 14, 2014 Upland Working Test

*The order of the tests will be established by
the judges on the day of the test.*

Bitches in season will run last.

Location

August A. Busch Memorial Conservation Area

2360 Highway D

St. Charles, MO 63304

Test Headquarters and directions to Test Site

From intersection of Interstate 64 and MO route 94 proceed West to Highway D and turn right. Continue to the entrance of the area. Signs to individual stakes will be posted in the area.

<http://mapq.st/1je50ai>

Approximately 23 miles, 34 minutes per Mapquest between Host Hotel (Holiday Inn-6 Flags, 4901 Six Flags Road, Eureka, MO 63025. Phone 636.938.6661) and Field grounds.

Field Test Participants, Spectators and Gallery Rules of Etiquette

Please remember that we are guests of the Missouri Department of Conservation and the August A. Busch Memorial Conservation Area. Treat the grounds with respect and please stay in the area designated by the marshal. Carefully extinguish all cigarettes and matches. No alcoholic beverages allowed.

Non-competing dogs are not allowed on the test grounds. Do not allow your dog to distract the dog that is being tested.

Reasonable silence, good manners and sportsmanlike conduct are required of all spectators. Any spectator interfering with any test will be directed to leave the hunt grounds. No dogs are allowed in the Spectator's Gallery. Feel free to ask questions. Respect the fact that some handlers and their dogs may be new at this and nervous about competing.

Please keep your dog on leash at all times. Exercise your dog, and then hold him in the designated Ready Area. Clean up after yourselves and your dogs.

While other dogs are being tested either on land or water, please refrain from loud talking or other noises, or from unnecessary motion and do not applaud until the dog has completed the tests and is leaving the line; all may be distracting and seriously interfere with the working dog.

Bitches in season will be allowed to run the tests after all other dogs have run. Please keep all bitches in season completely away from the Test Area until their turn.

Be aware that we are using live ammo during testing. Please watch yourself and your children.

Thank you,
Curly Competitors and Volunteers

Glossary for Upland and Working Tests

Retrieve: A dog shall proceed quickly and eagerly on land or into the water to the birds, and return promptly with the bird to the handler.

Marked Fall: Birds that the dog had cleanly seen.

Steady: The dog that waits quietly beside its handler and does not retrieve until commanded to do so.

Break: The dog makes a movement indicating the deliberate intent to retrieve without having been ordered by its handler and does not return to the handler's side when ordered to return.

Controlled Break: A dog makes an attempt to retrieve and is quickly brought back to the handler's side.

Blind Retrieve: The dog is directed by its handler to retrieve a bird that it has not seen fall. Hand signals, voice, and whistles are used to guide the dog to the bird.

Honor: The dog must watch another dog retrieve its marked falls.

Gallery: The spectators observing the test who shall remain far enough from the retrieving line so they do not interfere with the judges, handler or dog's ability to see its handler while out in the field.

Quartering: A test to evaluate a dog's attempt to find game in cover by hunting with it's nose and eyes within reasonable gun range of the Handler.

Retrieving Line: The area the judges, handler and dog work out of.

Trailing: A test to evaluate a dog's ability to find a scent trail and follow it to the bird without Handler knowing where the bird is located.

Walk-Up: A test to demonstrate the ability for a dog walking at heel with Handler to sneak up, flush sitting birds and for the dog to retrieve a shot bird.

Eligibility

Any Curly-Coated Retriever six months of age or older and registered with the AKC, UKC, FDSB, or CKC or any other foreign kennel club maintaining a national registry shall be eligible to participate in the CCRCA working certificate tests and upland working test . The test organizers shall have the option of opening the tests to other retrievers; time allowing and assuming the tests meet that breed's parent club's standards for such tests. The CCRCA shall not issue certificates to any breed other than Curly-Coated Retrievers.

In addition, any Curly-Coated Retriever that meets one of the above requirements may earn a CCRCA Working Certificate by successfully completing any working test held by the breed clubs of other retrievers or of Irish Water Spaniels, so long as the tests meet the minimum requirements for the appropriate Working Certificate of the CCRCA.

Any qualifying score at an AKC licensed Junior Hunting stake, or an HRC Started stake, or NAHRA Started stake will qualify a dog for a WC title.

Any qualifying score at an AKC licensed Senior stake or HRC Seasoned stake or NAHRA Intermediate stake, or completion of a Derby stake at an AKC sanctioned or licensed trial, will qualify a dog for a WCX title.

Any qualifying score at an AKC licensed Master stake or HRC Finished stake or NAHRA Senior stake, or completion of a Qualifying, Amateur, or Open stake at an AKC sanctioned or licensed trial, will qualify a dog for the WCQ title.

Working Certificate Test **Judges / Judges' Guidelines**

There shall be two judges for each set of tests.

The combined experience of a set of two judges shall include at least three AKC licensed retriever field trials or three AKC, HRC/UKC, or NAHRA licensed hunting retriever tests or any three of these in combination.

At least one of the judges shall have qualified a dog in the same or similar test; i.e., tests including the same or greater elements as the level of test to be judged. This includes, but is not limited to, qualifying a dog in other retriever breed's Working Certificate Tests, AKC Hunt Tests, NAHRA Field Tests, HRC/UKC Hunt Tests and AKC Field Trials.

Judges should be mailed the requirements of the various working dog certificates at least two weeks before the test.

Upon completion of the tests, both judges shall complete and sign the Verification Form for the test, marking pass or fail, and give this completed form to the owner or handler at events not sponsored by the CCRCA.

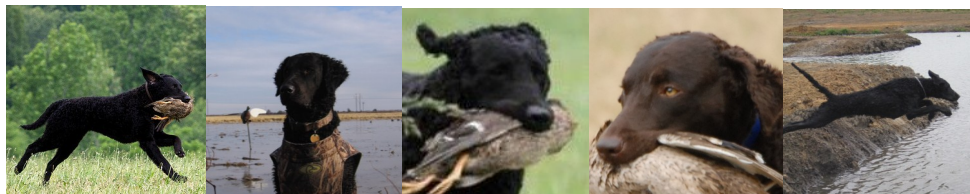

CURLY-COATED RETRIEVER CLUB OF AMERICA

WORKING CERTIFICATE PROGRAM

Revised 2001

The purpose of the Curly-Coated Retriever Working Certificate Program is to foster and encourage the natural retrieving abilities of the breed. It is designed to prove effective use of nose, marking ability, swimming, perseverance and the ability to work with the handler. The Working Certificate test (hereafter WC) shall consist of simple land and water tests, which will allow the basic natural ability of the Curly to be ascertained. The Working Certificate Excellent test (hereafter WCX) will test to a somewhat higher level of difficulty. The Working Certificate Qualified (hereafter WCQ) will not only test marking at the level expected of a finished dog, but also the ability to handle so as to determine trainability. To qualify for a certificate, all the required tests must be passed at the same series of tests. Birds that may be used include grouse, pheasant, quail, duck, chukar partridges, and pigeon. Handlers will be notified in advance as to which birds will be used. All dead birds used will be freshly killed. Bitches in season are eligible to run only after all other dogs have completed the series. In the meantime, they must be kept off the test site and away from the other dogs. The work “dog” throughout this document will refer to either sex.

Requirements, WC

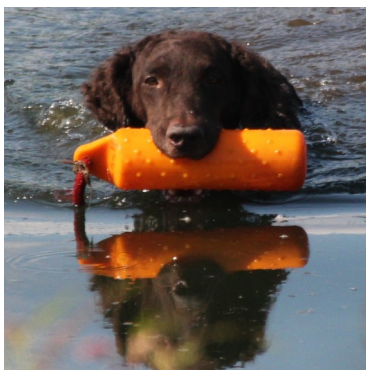

The land test, a single, shall consist of a freshly killed bird thrown 40 to 50 yards from the line in light to moderate cover. The throw shall be accompanied by a shotgun shot, either live shells or blanks. The dog need not be steady and may be restrained.

The water test shall consist of back-to-back singles, using ducks in open swimming water. The first bird shall be thrown 25 to 35 yards from the line, accompanied by a shotgun shot. The bird must be visible from the line when in the water. The second retrieve will have the same requirements as the first except it must land approximately 60 degrees or more from the first retrieve and be in light cover. The line may be moved so that the fall will be in a different area from the first retrieve.

For both the land and water tests, it is not necessary for the dog to be steady and return the bird to hand. However, the bird must be delivered across the line to within an approximate five-foot radius of the handler. The judges should look for evidence of severe gun shyness; that is, any attempt to bolt away at the sound of the shot so that the dog has to be restrained.

For both land and water tests, all guns shall be plainly visible to the dog from the line and shall not retire after firing.

If, in the opinion of the judges, the dog did not have a reasonable chance to mark the fall or was confused for reasons beyond its control, the test may be repeated or the dog recalled to the line by the handler and resent without penalty.

Requirements, WCX

The land test shall consist of one double mark on land. One bird shall be thrown approximately 50 yards from the line; the second may be up to 100 yards from the line. One bird shall be a shot flyer. The birds must land in light to moderate cover approximately 60 to 90 degrees apart. The dog may not be physically restrained at the line. A shotgun shot will accompany the fall of each bird.

The water test will also consist of a double mark. It will utilize ducks, one thrown approximately 50 yards from the line, the second not over 100 yards. The birds must land approximately 60-90 degrees from each other, and at least one downed bird shall not be visible from the line. As in the WC, a shotgun shot must accompany the fall of each bird. When circumstances allow, it is recommended that one bird in the water test shall be a shot flyer.

In both the land and water tests, the dog must be steady and deliver to hand, but is not required to sit or heel before doing so. A controlled break shall be considered a minor fault, not by itself grounds for the disqualification of a dog being tested.

For both land and water tests, all guns shall be plainly visible to the dog from the line and shall not retire after firing.

Decoys shall be used in at least one test (normally, the water test).

Requirements, WCQ

The land test shall be a triple mark in moderate to heavy cover with falls of up to 120 yards. One of the birds shall be a shot flyer. A shotgun shot or shots will accompany each fall. The test will involve changes of cover, terrain, or other barriers.

The water test shall be a double mark in light to moderate cover utilizing ducks. The downed birds shall not be visible from the line. Falls may be up to 100 yards from the line and preferably of different lengths. A significant portion, but not all, of either mark needs to be through water. This test should include changes of terrain, cover, or other barriers, and the angle of the falls shall be sufficiently tight to provide some temptation to switch or go back to re-hunt the first fall after having retrieved that bird. A shotgun shot or shots shall accompany the throwing of each bird.

For both the land and water retrieves all guns shall be plainly visible to the dog from the line.

Dogs must be steady and deliver to hand. Severe bank running or serious cheating on cover will be considered grounds for failing a test.

Dogs shall be required to honor while another dog is sent on one set of marks. The honoring dog will remain where indicated by the judges until the working dog has left the line and/or has been released by the judges. It is permissible to speak to the honoring dog as long as it does not interfere with the working dog. A dog whose failure to honor interferes with the running dog shall be disqualified.

The land blind will be a planted bird up to 100 yards from the line in light cover, or up to 75 yards in moderate cover. The blind shall be placed so that it cannot be readily winded until the dog has approached the vicinity and gone nearly the full distance to the bird. Whistle and hand signals and such commands as “over” and “back” may be used to direct the dog to the bird. Dogs should look, but need not sit on whistle. Repeated refusals to handle or respond to whistle shall be deemed grounds for failing the test. Dogs will be expected to take a line from the handler and carry it a considerable distance. If early correction of the line is necessary, then the dog should carry the secondary line from

the handler and carry it a considerable distance. Failure to do so, with the result that the dog must be handled excessively, shall also be deemed grounds for failure.

The water blind will be a planted bird up to 100 yards from the line in light to moderate cover. It need not be in the water, but a good portion of the route to the bird must be through swimming water. Other requirements are the same as to the land blind. One of the blinds, either land or water, shall be in the vicinity of earlier marking tests, so as to create some confusion or distraction for the dogs to cope with.

Disqualifications

Sending the dog before the judge's signal or an uncontrolled break.

Refusal to pick up the bird or dropping and leaving the bird before returning across the line to within a five-foot radius of the handler. Dropping the bird while the dog is adjusting its hold is not grounds for disqualification.

For the WCX or WCQ not delivering the bird to hand.

Flagrant refusal to enter water, cover, mud or other unpleasant or difficult terrain if the dog must do so to return the bird expeditiously. However, a dog which bank runs or avoids cover on the WC or WCX tests will not be disqualified so long as it completes the retrieve in satisfactory fashion.

Unwillingness to deliver the bird to the handler or refusal to release the bird to the handler.

Evidence of hard mouth, that is, badly damaging the bird, making it unfit for the table.

Manhandling or abuse of the dog by the handler, either on or off the line.

Severe gun shyness.

Disqualifications

Sending the dog before the judge's signal or an uncontrolled break.

Refusal to pick up the bird or dropping and leaving the bird before returning across the line to within a five-foot radius of the handler. Dropping the bird while the dog is adjusting its hold is not grounds for disqualification.

For the WCX or WCQ not delivering the bird to hand.

Flagrant refusal to enter water, cover, mud or other unpleasant or difficult terrain if the dog must do so to return the bird expeditiously. However, a dog which bank runs or avoids cover on the WC or WCX tests will not be disqualified so long as it completes the retrieve in satisfactory fashion.

Unwillingness to deliver the bird to the handler or refusal to release the bird to the handler.

Evidence of hard mouth, that is, badly damaging the bird, making it unfit for the table.

Manhandling or abuse of the dog by the handler, either on or off the line.

Severe gun shyness.

For the WCX or WCQ, after finding the bird, switching and picking up another bird.

Clear failure to mark at least the vicinity of a fall, which the dog had reasonable opportunity to mark.

Serious displays of meanness, such as unprovoked attacking of another dog in the blind or en route to or from the line and/or snapping at the judges or others near the test area, shall be considered grounds for disqualification.

A minor fault repeated shall be treated as major and either it or an accumulation of different minor faults shall, if deemed excessive by the judges, be grounds for disqualification.

Upland Working Certificate **Judges / Judges' Guidelines**

Two judges are required for the Upland Working Certificate (UWC) test, at least one of which meets the following criteria:

An individual deemed qualified by the CCRCA field committee; or an individual who has served as an apprentice judge at another CCRCA Upland Test, or a Licensed HRC Upland Judge; or a NAHRA judge, qualified at the Senior level.

This qualification to be dropped as sufficient Club members are trained as apprentices during CCRCA events. It is recommended that gunners at every event receive sufficient instruction from the judge to qualify as apprentices, allowing them to judge future events.

It is recommended that one of the judges also gun to limit the size of the hunting party.

CURLY-COATED RETRIEVER CLUB OF AMERICA

UPLAND WORKING TEST PROGRAM

Revised January 18, 2007

“The purpose of the CCRCA Upland Working Test is for a Curly to show hunt desire, bird sense, trainability and teamwork when hunting with it's handler while under judgment.”
Ann Shinkle

Requirements, Upland Working Test

The Upland Working Test will be conducted according to the rules already established for the CCRCA's Working Certificate, plus the changes or additions to these rules, which follow:

The Upland Game Test shall consist of a simulated walk-up hunt with a retrieve, a quartering test with two flushes, a blind locate of a dead bird and a tracking test. Since the purpose of this test is to primarily judge natural ability rather than handling and training, the dog need not be steady to wing and shot, but must remain under reasonable voice control of the handler. During this test, the dog will be required to locate and retrieve game as the Judges shall direct. In all tests, the dog shall retrieve the bird to within 5 feet of the handler. The handler shall not move towards the dog to shorten the retrieve, but they may move to an open area to receive the bird.

1. Walk-up: This should be the first test in the series as it will be used to check for gun shyness. – The dog shall be under reasonable voice control of the handler. At the judges signal, a gunner no closer than 25 yards nor more than 40 yards from the dog shall hail the dog (e.g. “there goes one”) to gain the dogs attention, simultaneously launch a fresh killed bird and then fire a popper at the bird. The bird shall land in an area of relatively light cover. The dog is free to retrieve the bird as soon as it is in the air. This is not a steadiness test. The judge shall watch the dog for any sign of gun shyness, and if noted, for the sake of the dog, it should be prevented from further participation in the test.

2. Quartering: The dog hunts in a radius ideally 10 to 30 yards to the front of the Handler and Hunting party. The Hunting Party shall consist of the judge, the handler and two gunners. The judge may also gun if there are insufficient gunners available. The gunners should be capable shots, but as in real hunting, it is not possible to guarantee that all birds will be hit. In all cases, a natural flush is preferred to the use of traps, pens, cages or other devices designed to contain and then release birds during the quartering test. However, when conditions exist that prohibit the use of natural flushes (e.g., weather, poor birds, insufficient cover, etc.), such devices may be utilized but must be sufficiently camouflaged. The live bird shall be flushed (thrown or released) in full view of the dog. The distance from the bird to the dog should be within scenting distance when the bird is released. The dog is not required to be steady to wing and steady to shot but should return to the handler upon being called and/or whistle commanded. If the gunners do not kill the bird and the dog does not return with reasonable promptness to the hunting area when called, the test may be failed. The dog should be eager to hunt all available cover diligently and be under control. The intent of the quartering test is not to demonstrate running a pattern, but to demonstrate a natural tendency to hunt and be under control. Each Dog must be presented with a minimum of two (2) birds to “flush” in the quartering test.

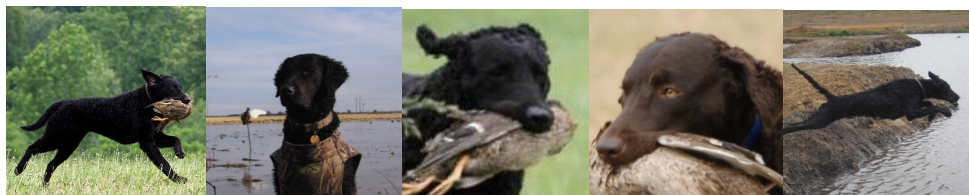

3. Blind: The dog shall be required to locate a bird that is shot, but the fall of which is not seen. Out of the sight of the dog and handler, a fresh killed bird is thrown into a marked area of heavy cover of approximately 625 square feet (25' x 25'). A gunshot is fired. The han-

dlers and the dog walk into the marked area of the fall and the dog is instructed to find the bird. The handler may encourage their dog to search with voice commands, but must remain in one place. If the dog leaves the area it may be called back and encouraged to continue its hunt. The dog is expected to find the bird and return it to the handler.

4. Trailing: The dog shall be required to trail, locate a bird and deliver it to hand. It shall be judged on its natural ability and the use of its nose to locate and follow the trail. It shall not matter in what manner the dog follows the trail, e.g. The dog may stay precisely on the trail with nose down or close quarter back and forth across the trail with head up or run a few yards downwind of the trail with his head held high. It is the intent of this test to have a dog indicate scent, follow the trail and locate the bird in a natural hunting manner. A dog that quarters widely and does not demonstrate that it is following the trail shall not pass. A dog may be urged to hunt by moderate voice or whistle commands, but handlers may not enter the area of the trail. Hand signals are inappropriate and shall not be used other than to put the dog onto the beginning of the trail. Dogs shall be required to trail a minimum distance of 50 yards and shall not exceed 70 yards. Judges are urged to create a trail that simulates a realistic scenario and not to simply go through the motions with a straight-line drag. The trail should contain at least one distinguishable change in direction. It is permissible to drag a trail to a dead bird or to release a clipped wing bird.

SCORING

There is no formal scoring for a UWC. The Judge shall use their experience with dogs to determine if this dog is or has the natural ability to become a strong upland hunter. The dog must successfully complete all four sections of the test. However, just picking up all of the birds is not enough to be considered passing. A fault, even if minor, which is repeated multiple times, may remove the dog from consideration.

CURLY-COATED RETRIEVER CLUB OF AMERICA

Ross Round Fund

DEDICATED TO THE MEMORY OF OUR FRIEND ROSS

Ross E. Round III Memorial Fund

The purpose of the Ross E. Round III Memorial Fund is to create a permanent fund to promote the preservation of the Curly-Coated Retriever as a working retriever. The fund is named in honor of Ross Round, a true supporter of the breed, its fanciers and curly field activities.

The Field Committee is charged with developing a strategic plan for fund raising and prioritizing distributions and will administer the fund. Monies will be held by the CCRCA Treasurer and shall be distributed as directed by the Field Committee.

The Field Chair is required to report all distributions in the next scheduled issue of the Curly Commentator and shall provide an annual report on the fund's activities to be distributed at the CCRCA Annual Membership Meeting.

The fund shall be established and maintained through voluntary contributions from a variety of sources, including direct donations, optional contributions as part of the CCRCA's annual dues and fundraisers sponsored by any organization.

The purpose of the fund is to further hunting interest and field training with Curly-Coated Retrievers. Potential opportunities may include the following:

- Supporting a CCRCA lending library for training resources
- Advertising the breed in gundog type magazine
- Providing seed money for new regional groups organized to train and run working tests
- Supporting the efforts of the Public Education Committee at sportsman's shows

Hunting Retriever Titles: What Do Those Letters Mean?

Hunt Test titles can be earned through the AKC, UKC and NAHRA. Hunt Tests are non-Competitive tests in which the dog (and handler) is measured against a standard. If the dog (and handler) meet the standard, a "pass" is earned. The AKC, UKC and NAHRA Hunt Tests are designed to resemble actually hunting situations. Each organization has different requirements yet is equally difficult and resembles different hunting scenarios. Hunt Tests are the most popular field events. AKC titles are displayed behind the dog's name whereas, UKC and NAHRA titles are displayed before the dog's name.

American Kennel Club (AKC) Hunt Test Titles

- **JH = Junior Hunter:** In order to be recorded as a Junior Hunter, a dog must be registered in the AKC Stud Book, and must have a record of having acquired Qualifying scores in the Junior Hunting Test at four (4) AKC licensed or member club Hunting Tests. Upon completion of these requirements, an AKC Junior Hunter (JH) certificate will be issued to the owner, and the dog shall be identified as a Junior Hunter in all official AKC records by the suffix title JH. A dog that has been recorded as a Junior Hunter may continue to enter the Junior Hunting Test, but no further Junior Hunter certificates will be issued.
- **SH = Senior Hunter:** In order to be recorded as a Senior Hunter, a dog must be registered in the AKC Stud Book, and must have a record of having acquired Qualifying scores in the Senior Hunting test at five (5) AKC licensed or member club Hunting Tests, or, in the case of a dog that has been recorded as a Junior Hunter, that dog will be recorded as a Senior Hunter after having acquired Qualifying scores in the Senior Hunting Test at four (4) AKC licensed or member club Hunting Tests. Upon completion of these requirements, an AKC Senior Hunter (SH) certificate will be issued to the owner, and the dog shall be identified as a Senior Hunter in all official AKC records by the suffix title SH, which title shall supersede

the Junior Hunt requirements for a Junior Hunter have been completed. A dog that has completed the requirements for Senior Hunter at AKC-licensed or member events is no longer eligible to compete in the Junior Hunting Test level.

Note A dog that has been recorded as a Senior Hunter may continue to enter both Junior and Senior Hunting Tests, provided handlers are under age 18 at the beginning date of the test level entered but no further Junior or Senior certificates will be issued.*

- **MH = Master Hunter:** In order to be recorded as a Master Hunter, a dog must be registered in the AKC Stud Book and must have a record of having acquired a Qualifying score in the Master Hunting Test at six (6) AKC-licensed or member club Hunting Tests, or, in the case of a dog that has been recorded by AKC as a Senior Hunter, that dog will be recorded as a Master Hunter after having acquired Qualifying scores in the Master Hunting Test at five (5) AKC-licensed or member club Hunting Tests. Upon completion of these requirements, an AKC Master Hunter (MH) certificate will be issued to the owner and the dog will be identified as a Master Hunter in all official AKC records by the suffix title MH, which title shall supersede any AKC Hunting Test title that may have been previously earned. A dog that has been recorded as a Master Hunter may continue to enter the Master Hunting Test but no further Master Hunter certificates will be issued. A dog that has been recorded as a Master Hunter may continue to enter Junior, Senior, and Master Hunting Tests, provided handlers are under age 18 at the beginning of the test level entered, but no further Junior, Senior, or Master Hunter certificates will be issued. A dog is not required to earn any title as a prerequisite for earning a higher title. Dogs that have acquired a Qualifying Score in a Master Hunting Test at an AKC-licensed or member Hunting Test and have not completed the requirements for a Junior or Senior Hunter title are eligible to compete at the Junior or Senior Hunter level until the requirements for a Junior or Senior Hunter have been completed. A dog that has completed the requirements for Master Hunter at AKC-licensed or member events is no longer eligible to compete in the Junior or Senior Hunting Test level.

**United Kennel Club (UKC)/
Hunting Retriever Club (HRC)
Hunt Test Titles**

- **SHR** = Started Hunting Retriever: title is attained by earning four (4) passes in the Started category. Points/passes earned in a higher category do not count towards this title. A maximum of ten (10) Championship points can be earned in the Started category towards a higher degree. Once points are earned in a higher category, the retriever may not return to Started and earn the SHR title. Five (5) Championship points per UKC Licensed Hunt are awarded for those dogs who pass all Started Hunting Retriever tests.
- **HR** = Hunting Retriever: title is attained by earning forty (40) Championship points. Points can be earned in Started, Seasoned or Finished. Dogs are not required to earn points in Started and/or Seasoned to earn this title. If only five (5) points are earned in the Started category, then forty (40) points may be earned in the Seasoned and/or Finished categories. If ten (10) points are earned in the Started category, then thirty (30) points may be earned in the Seasoned and/or Finished category. Ten (10) Championship points per UKC Licensed Hunt are awarded for those dogs who pass all Finished Hunting Retriever tests. Maximum of forty (40) Championship points towards a degree can be earned in this category. Unless ten (10) Started Championship points were earned, then a maximum of thirty (30) Championship points can be earned toward a degree in this category.
- **HRCH** = Hunting Retriever Champion: title is attained by earning one hundred (100) Championship points. Sixty (60) of the one hundred (100) points must be earned from the Finished category. Points can be earned in Started, Seasoned or Finished. Dogs are not required to earn points in Started and/or Seasoned to earn this title. A maximum of forty (40) points can be earned in the Seasoned category towards the Hunting Retriever Champion (HRCH) title, unless ten (10) Started Championship points were earned, then a maximum of thirty (30) Seasoned Championship points can be earned toward the HRCH degree. Fifteen (15) Championship points per UKC Licensed Hunt are awarded for those dogs who pass all Fin-

ished Hunting Retriever tests. Fifteen (15) Championship points per UKC Licensed Hunt are awarded for those dogs who pass all Finished Hunting Retriever tests.

- **GHRCH** = Grand Hunting Retriever Champion: title is attained by earning two hundred (200) additional points in the Finished, Grand or Upland—forty (40) points max from Upland—categories after the HRCH title is earned for a total of three hundred (300) points. Eighty (80) of the additional two hundred (200) points, above the HRCH title, must be earned from passing two (2) Grand Hunts. Forty (40) Championship points per UKC Licensed Hunt are awarded for those dogs who pass all Grand Hunting Retriever tests.
- **UH** = Upland Hunter: title is attained by earning forty (40) Upland Hunter Championship points. Upland points only count toward the Upland Hunter title and HRC's Point Club Recognition programs. Ten (10) Championship points per UKC Licensed Hunt are awarded for those dogs who pass all Upland Hunt tests. The Upland Hunt Test is a separated licensed event and not to be confused with an Upland test that may be included in a Seasoned or Finished test or the Upland series of the Grand Hunt.

Source: UKC/HRC Rules & Regulations, January 1, 2009

North American Hunting Retriever Association (NAHRA) Hunt Test Titles

- **SR** = Started Retriever : A dog receiving a Qualifying score in the Started testing category at a Licensed NAHRA Field Test shall be credited with two and one half (2.5) points toward the title Started Hunting Retriever (SR). The title Started Hunting Retriever (SR) will be issued to the owner of dog acquiring ten (10) points in the Started testing category at a Licensed NAHRA Hunting Retriever Field Tests.
- **HR** = Hunting Retriever: A dog receiving a Qualifying score in the Hunter testing category at a Licensed NAHRA Field Test shall be credited with two and one half (2.5) points toward the title Hunting

Retriever (HR). The title Hunting Retriever (HR) will be issued to the owner of a dog acquiring ten (10) ten points in the Hunter testing category at Licensed NAHRA Hunting Retriever Filed Tests.

- **WR** = Working Retriever : A dog receiving a Qualifying score in the Intermediate testing category at a Licensed NAHRA Field Test shall be credited with five (5) points toward the title Working Retriever (WR). The title Working Retriever (WR) will be issued to the owner of a dog acquiring ten (200) ten points in the Intermediate Hunter testing category at Licensed NAHRA Hunting Retriever Filed Tests.
- **MHR** = Master Hunting Retriever : A dog receiving a Qualifying score in the Senior testing category at a Licensed NAHRA Field Test shall be credited with twenty (20) points toward the title Master Hunting Retriever (MHR). Dogs that have acquired points in the Senior testing category at Licensed NAHRA Hunting Retriever Field Tests may continue to enter either the Started or Intermediate testing categories. The title Master Hunting Retriever (MHR) will be issued to the owner of a dog acquiring at least one hundred (100) points in Licensed NAHRA Hunting Retriever Filed Tests in the Senior testing category or have accumulated twenty (20) Intermediate points and eighty (80) Senior points in Licensed NAHRA Hunting Retriever Field Tests.
- **GMHR** = Grand Master Hunting Retriever : A Master Hunting Retriever that goes on to accumulate 300 or more points in the Senior testing category at Licensed NAHRA Hunting Retriever Field Tests will be recorded as a Grand Master Hunting Retriever.
- **GMHRCH** = Grand Master Hunting Retriever Champion: A Master Hunting Retriever that goes on to accumulate 1000 or more points in the Senior testing category at Licensed NAHRA Hunting Retriever Field Tests will be recorded as a Grand Master Hunting Retriever champion.

How is Agility Scored?

Agility is a time and fault sport where the qualifying requirements are more challenging as the competition class levels get higher. There are two types of faults: time and penalty. Time faults are given for every second a dog goes over the Standard Course Time as set by the length of the course.

Examples of Penalty Faults that a judge may assess a handler and dog:

- Taking an obstacle out of sequence

- Missing a contact zone

- Displacing a bar or panel on a jump

- Jumping off the pause table before the judge is through counting

- Running around or refusing the next obstacle

- Exceeding the amount of time set by the judge for running the course

- Touching either the dog or any obstacle by the handler while running the course

- Outside assistance may be penalized

- Handler failure to control the dog may be penalized

Agility Jump Heights

The classes are divided by jump heights in order to make the competition equal between the different sizes of dogs. A dog may jump in a jump height class higher than his/her shoulder measurement, but never lower.

Smaller dog heights removed to save space.

20" Class – dogs over 18" and up to 22" at the shoulder

24" Class – dogs over 22" at the shoulder

26" Class – dogs may be entered at this height at their owner's discretion.

Qualifying Performance

A perfect score in any class at any level is 100. A dog must earn 3 qualifying scores under two different judges. The minimum score to qualify is 85 in all classes except in the Excellent/Masters class where the minimum score is 100. The minimum time allowed to run the course and the number of obstacles to complete successfully, increase as the level of difficulty increases.

AGILITY

Running a dog in an agility trial is the ultimate game for you and your dog and is one of the most exciting canine sports for spectators. In an agility trial, a dog demonstrates its agile nature and versatility by following cues from the handler through a timed obstacle course of jumps, tunnels, weave poles and other objects. It's an activity that strengthens the bond between dog and handler and provides fun and exercise for both, which might explain why it's so enjoyable to watch and has become the fastest-growing dog sport in the United States!

Types of Classes

There are several types of classes offered at an agility trial: Standard, Jumpers with Weaves, Fifteen And Send Time (FAST) and Preferred.

The Standard class has contact obstacles, which have yellow “contact zones” at each end. Contact obstacles include A-frame, dog walk and seesaw. The dog must place a least one paw in the contact zone in order not to receive a fault. This encourages safety in training and in running the course. The Standard class also has a variety of jumps; weave poles, pause table, tunnels and a closed tunnel.

The Jumpers with Weaves class does not have contact obstacles or a pause table to slow the team's forward momentum. This is a very fast course requiring instant decisions by the handler and close attention from the dog.

The FAST class is an additional test of strategy, skill, accuracy, speed, timing and distance handling to demonstrate a dog's athletic ability and willingness to work with its handler in a fast-paced atmosphere over a variety of agility obstacles. As indicated by the title, the Fifteen and Send Time class uses fifteen (15) point-valued obstacles and/or obstacle combinations. The course will include a ‘Send Bonus’ or distance element that will award a bonus of twenty (20) points if completed successfully.

The Preferred classes with modified standards of lower jump heights and more generous course times. They must compete at the required jump height.

Levels of Difficulty

There are three different levels of competition in agility: Novice, Open and Master/Excellent.

The Novice class is for the dog that is just starting in agility. There are 14 to 16 obstacles on this course. The focus of the Novice class is on performing the obstacles with minimal handling technique.

The Open class is for the dog that has completed the Novice level. There are 16 to 18 obstacles on this course. The focus of the open class is on more difficult obstacle course performance with more handling skill required.

The Master/Excellent class is for the dog that has completed the Open level. There are 18 to 20 obstacles on this course. The focus of the Excellent A & B class is to provide the opportunity for dogs and handlers to demonstrate their superior skills in moving quickly and efficiently with close communication and teamwork through challenging agility courses. The Excellent B level is the class where dog/handler teams can earn the title, Master Agility Champion (MACH), in the Regular Classes.

Prizes

For Curly-Coated Retrievers—Dogs must qualify to receive prizes.

OBEDIENCE

Tips for the First-time Spectator

However tempting, do not pet a dog without first asking for and receiving permission.

Many obedience trials have vendors and an information booth with helpful information for the general public. Browse, gather information and ask questions.

Arrive early, and bring a chair! Obedience often starts very early in the morning.

If you have not as yet purchased your dog, speak to exhibitors about their breeds to gain knowledge of the best dog for your family. Also visit the "[Buying a Puppy](#)" section of the AKC website.

If you bring a baby stroller to an obedience trial, be careful not to run over any dog's tail. Be sure your child respects the dogs and does not grab or poke at them. Due to space requirements some trials do not allow baby strollers.

Qualifying Score

A dog receives a qualifying score when it earns more than 50 percent of the points for each exercise, with a total of at least 170 points. A perfect score in any class is 200.

BEGINNER NOVICE OBEDIENCE

- **Heel on Leash** – show whether the dog has learned to watch its handler and adjust its pace to stay with the handler.
- **Figure Eight**. – same as Heel on Leash but done in a Figure Eight pattern.
- **Sit for Exam** – is of great benefit when the dog needs hands-on care by a veterinarian.
- **Sit Stay** – allows the handler to have control of the dog when visitors come to the home.
- **Recall** – provides the handler with the ability to call the dog and get an immediate response at all times.

NOVICE OBEDIENCE

For the dog just getting started in obedience. Exercises include::

- **Heel on Leash and Figure Eight** – show whether the dog has learned to watch its handler and adjust its pace to stay with the handler.
- **Heel Free** – done off leash.
- **Stand for Examination** – is of great benefit when the dog needs hands-on care by a veterinarian.
- **Recall** – provides the handler with the ability to call the dog and get an immediate response at all times.
- **Long Sit (1 minute)** – allows the handler to have control of the dog when visitors come to the home.
- **Long Down (3 minutes)** – dog must remain in a down position.

GRADUATE NOVICE OBEDIENCE

- **Heel on Leash and Figure Eight (off leash)** – show whether the dog has learned to watch its handler and adjust its pace to stay with the handler.
- **Drop on Recall** – can be a lifesaving command for a dog, since it gives the handler control in potentially dangerous situations.
- **Dumbbell Recall** – this exercise is performed like Novice Recall but with the dog holding a dumbbell.
- **Recall Over High Jump.**
- **Recall Over Broad Jump.**
- **Long Down (3 minutes)** – dog must remain in a down position.

OPEN OBEDIENCE

The second level includes more complicated exercises, which teach the dog to do a variety of tasks and to follow commands either by voice or signal. Exercises include:

- **Heel Free and Figure Eight** – Same as Novice, but off leash.
- **Drop on Recall** – can be a lifesaving command for a dog, since it gives the handler control in potentially dangerous situations.
- **Retrieve on Flat**
- **Retrieve Over High Jump**
- **Broad Jump**
- **Long Sit (3 minutes)** – similar to the long sit in Novice, but the position must be held for a longer period of time with the handler out of the dog's sight.
- **Long Down (5 minutes)** – dog must remain in a down position.

GRADUATE OPEN OBEDIENCE

- **Signal Exercise** – shows the dog's ability to understand and correctly respond to the handler's signal to stand, stay, down, sit and come. No voice commands are given; only hand signals are allowed.
- **Scent Discrimination** – shows the dog's ability to find the handler's scent among a pile of articles.
- **Directed Retrieve** – proves the dog's ability to follow a directional signal to retrieve a glove and promptly return it to the handler.
- **Moving Stand and Examination** – the dog must heel, stand and stay as the handler moves away. The dog must stay and accept an examination by the judge and return to the handler on command.
- **Go Out** – show the ability to send the dog away and stop as directed.
- **Directed Jumping** – the dog must go away from the handler, turn and sit. Then, the dog must clear whichever jump its handler indicates and promptly return to the handler.

UTILITY OBEDIENCE

The third and highest level of obedience competition. Exercises include:

Signal Exercise – shows the dog's ability to understand and correctly respond to the handler's signal to stand, stay, down, sit and come. No voice commands are given; only hand signals are allowed.

- **Scent Discrimination** – shows the dog's ability to find the handler's scent among a pile of articles.
- **Directed Retrieve** – proves the dog's ability to follow a directional signal to retrieve a glove and promptly return it to the handler.
- **Moving Stand and Examination** – the dog must heel, stand and stay as the handler moves away. The dog must stay and accept an examination by the judge and return to the handler on command.
- **Directed Jumping** – the dog must go away from the handler, turn and sit. Then, the dog must clear whichever jump its handler indicates and promptly return to the handler.

The Joy Encouragement Award

The Joy Encouragement Award is issued on a calendar basis for the highest average of at least three scores for any Curly in AKC

This Award is offered by Doris Hodges
in Memory of :
Am/Can OTCH Am.CH Karakul Joy of
Summerwind UD WC

The first OTCH and the first High in Trial
Curly-Coated Retriever in the US.

As her breeder,
I want to keep Joy's memory alive by

RALLY

Rally is a sport in which the dog and handler complete a course that has been designed by the rally judge. The judge tells the handler to begin, and the dog and handler proceed at their own pace through a course of designated stations (10 - 20, depending on the level). Each of these stations has a sign providing instructions regarding the next skill that is to be performed. Scoring is not as rigorous as traditional obedience.

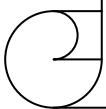

The team of dog and handler moves continuously at a brisk, but normal, pace with the dog under control at the handler's left side. There should be a sense of teamwork between the dog and handler both during the numbered exercises and between the exercise signs; however, perfect "heel position" is not required. Any faults in traditional obedience that would be evaluated and scored as a one-point deduction or more should be scored the same in Rally, unless otherwise mentioned in the Rally Regulations. After the judge's "Forward" order, the team is on its own to complete the entire sequence of numbered signs correctly.

Unlimited communication from the handler to the dog is to be encouraged and not penalized. Unless otherwise specified in these Regulations, handlers are permitted to talk, praise, encourage, clap their hands, pat their legs, or use any verbal means of encouragement. Multiple commands and/or signals using one or both arms and hands are allowed. The handler may not touch the dog or make physical corrections. At any time during the performance, loud or harsh commands or intimidating signals will be penalized.

Rally provides a link from the Canine Good Citizen® (CGC) program to obedience or agility competition, both for dogs and handlers. In addition, rally promotes fun and enjoyment for dogs at all levels of competition.

Qualifying Performance A qualifying performance indicates that the dog has performed the required exercises according to the AKC Rally Regulations. Each performance is timed, but times are only counted if two dogs earn the same score. All dogs and handlers begin with a perfect 100. A dog and handler team is awarded a qualifying score if it retains at least 70 points after the course has been completed. Once the team has completed the course, their score will be posted ringside.

CURLY-COATED RETRIEVER BREED STANDARD

General Appearance

This smartly upstanding, multi-purpose hunting retriever is recognized by most canine historians as one of the oldest of the retrieving breeds. Developed in England, the Curly was long a favorite of English gamekeepers. Prized for innate field ability, courage and indomitable perseverance, a correctly built and tempered Curly will work as long as there is work to be done, retrieving both fur and feather in the heaviest of cover and the iciest of waters. To work all day a Curly must be balanced and sound, strong and robust, and quick and agile. Outline, carriage and attitude all combine for a grace and elegance somewhat uncommon among the other retriever breeds, providing the unique, upstanding quality desired in the breed. In outline, the Curly is moderately angulated front and rear and, when comparing height to length, gives the impression of being higher on leg than the other retriever breeds. In carriage, the Curly is an erect, alert, self-confident dog. In motion, all parts blend into a smooth, powerful, harmonious symmetry. The coat, a hallmark of the breed, is of great importance for all curlies, whether companion, hunting or show dogs. The perfect coat is a dense mass of small, tight, distinct, crisp curls. The Curly is wickedly smart and highly trainable and, as such, is cherished as much for his role as loyal companion at home as he is in the field.

Size, Proportion, Substance

Ideal height at withers: dogs, 25 to 27 inches; bitches, 23 to 25 inches. A clearly superior Curly falling outside of this range should not be penalized because of size. The body proportions are slightly off square, meaning that the dog is slightly longer from prosternum to buttocks as he is from withers to ground. The Curly is both sturdy and elegant. The degree of substance is sufficient to ensure strength and endurance without sacrificing grace. Bone and substance are neither spindly nor massive and should be in proportion with weight and height and balanced throughout.

Head

The head is a longer-than-wide wedge, readily distinguishable from that of all other retriever breeds, and of a size in balance with the body. Length of foreface is equal, or nearly equal, to length of backskull and, when viewed in profile, the planes are parallel. The stop is shallow and sloping. At the point of joining, the width of foreface may be slightly less than the width of the backskull but blending of the two should be smooth. The head has a nearly straight, continuous taper to the nose and is clean cut, not coarse, blocky or cheeky. Expression--Intelligent and alert. Eyes--Almond-shaped, rather large but not too prominent. Black or brown in black dogs and brown or amber in liver dogs. Harsh yellow eyes and loose haws are undesirable. Ears-- Rather small, set on a line slightly above the corner of the eye, and lying close to the head. Backskull--Flat or nearly flat. Foreface--Muzzle is wedge-shaped with no hint of snipiness. The taper ends mildly, neither acutely pointed nor bluntly squared-off but rather slightly rounding at the bottom. Mouth is level and never wry. Jaws are long and strong. A scissors bite is preferred. Teeth set straight and even. The lips are tight and clean, not pendulous. The nose is fully pigmented; black on black dogs, brown on liver dogs. Nostrils are large.

Neck, Topline, Body

Neck--Strong and slightly arched, of medium length, free from throatiness and flowing freely into moderately laid-back shoulders. Backline--The back, that portion of the body from the rear point of the withers to the beginning of the loin, is strong and level. The loin, that part of the body extending from the end of the rib cage to the start of the pelvis, is short and muscular. The croup, that portion of the body from the start of the pelvis to the tail set-on, is only slightly sloping. Body-- Chest is decidedly deep and not too wide, oval in cross-section, with brisket reaching elbow. While the impression of the chest should be of depth not width, the chest is not pinched or narrow. The ribs are well-sprung, neither barrel-shaped nor slab-sided, and extend well back into a deep, powerful loin with a moderate tuck-up of flank. Tail--Carried straight or fairly straight, never docked, and reaching approximately to the hock. Never curled over the back and should not be kinked or crooked. Covered with curls and, if trimmed, tapering toward the point.

Forequarters

Shoulder blades are very long, well covered with muscle, and are moderately laid back at about a 55 degree angle. The width between shoulder blades is adequate to allow enough flexibility to easily retrieve game. Upper arm bones are about equal in length with shoulder blades and laid back at approximately the same angle as the blades, meaning the forelegs are set under the withers. The equal length of shoulder blade and upper arm bone and the balanced angulation between the two allows for good extension of the front legs. The forelegs are straight with strong, true pasterns. Feet are round and compact, with well-arched toes and thick pads. Front dewclaws are generally removed.

Hindquarters

Strong and in balance with front angulation. Thighs are powerful with muscling carrying well down into the second thigh. Stifle is of moderate bend. The hocks are strong and true, turning neither in nor out, with hock joint well let down. Rear dewclaws are generally removed.

Coat

The coat is a distinguishing characteristic and quite different from that of any other breed. The body coat is a thick mass of small, tight, crisp curls, lying close to the skin, resilient, water resistant, and of sufficient density to provide protection against weather, water and punishing cover. Curls also extend up the entire neck to the occiput, down the thigh and back leg to at least the hock, and over the entire tail. Elsewhere, the coat is short, smooth and straight, including on the forehead, face, front of forelegs, and feet. A patch of uncurled hair behind the withers or bald patches anywhere on the body, including bald strips down the back of the legs or a triangular bald patch on the throat, should be severely penalized. A looser, more open curl is acceptable on the ears. Sparse, silky, fuzzy or very harsh, dry or brittle hair is a fault. Trimming--Feathering may be trimmed from the ears, belly, backs of forelegs, thighs, pasterns, hocks, and feet. On the tail, feathering should be removed. Short trimming of the coat on the ear is permitted but shearing of the body coat is undesirable.

Color

Black or liver. Either color is correct. A prominent white patch is undesirable but a few white hairs are allowable in an otherwise good dog.

Gait

The dual function of the Curly as both waterfowl retriever and upland game hunter demands a dog who moves with strength and power yet is quick and agile. The ground-covering stride is a well-coordinated melding of grace and power, neither mincing nor lumbering. The seemingly effortless trot is efficient and balanced front to rear. When viewed from the side, the reach in front and rear is free-flowing, not stilted or hackneyed. When viewed from the front or rear, movement is true: the front legs turn neither in nor out and the rear legs do not cross. Well-developed, muscular thighs and strong hocks do their full share of work, contributing to rear thrust and drive. The extension in front is strong and smooth and in balance with rear action. Balance in structure translates to balance in movement and is of great importance to ensure soundness and endurance; extremes of angulation and gait are not desirable.

Temperament

Self-confident, steadfast and proud, this active, intelligent dog is a charming and gentle family companion and a determined, durable hunter. The Curly is alert, biddable and responsive to family and friends, whether at home or in the field. Of independent nature and discerning intelligence, a Curly sometimes appears aloof or self-willed, and, as such, is often less demonstrative, particularly toward strangers, than the other retriever breeds. The Curlys independence and poise should not be confused with shyness or a lack of willingness to please. In the show ring, a correctly-tempered Curly will steadily stand his ground, submit easily to examination, and might or might not wag his tail when doing so. In the field, the Curly is eager, persistent and inherently courageous. At home, he is calm and affectionate. Shyness is a fault and any dog who shies away from show ring examination should be penalized. Minor allowances can be made for puppies who misbehave in the show ring due to over exuberance or lack of training or experience.

Approved October 12, 1993 Effective November 30, 1993

"Coosa"

Skywatcher's Double Reed Whisper CA WC

Demonstrating beauty, brains and athleticism, Coosa is a dynamic package.

A powerful athlete and fun-loving showgirl, this hotshot bundle of energy has only just begun to make her mark in the world!

She has 3 passes towards her JH title and 2 passes towards her SHR title, and earned her CA title with 3 straight passes.

Earning an invitation to the Amateur Owner Handler Series Finals in 2013, she is currently ranked in the Top Ten AOH Series for 2014. Wishing everyone fun times and Good Luck at the 2014 Specialty!

Skywatcher Curly-Coated Retrievers

Many personal **THANKS** go out to these individuals (and their businesses) that helped make this year's Specialty such a success-

Chesapeake Enterprises

Eileen and Mark Bair

(custom embroidery and merchandise)

Lancaster Trophy Shoppe

Alex Apostolopoulos

(engraving and vinyl art)

Wanda Marrison

(special engraving on BOB, BOS, BOW, HIT, HC, HCR and all Bests in Sweeps)

Keramiikkapaja koiruuksia

Marika Lehtonen

(auction donation from Finland!)

And of course, PAT and APRIL!

I am most grateful for their invaluable help and support!

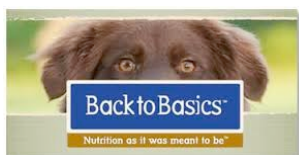

*Thank you to the
very generous
companies who
have donated to our
raffle & exhibitor
bags!*
